This project has received funding from the European Union's Horizon 2020
research and innovation programme under grant agreement No 871877

Investment Readiness Program

- builds the fundraising capacity of deep-tech startups
- creates working networks between investors and startups
- gives opportunity to meet deep-tech startups fully equipped to raise investment
- guarantees access to dealrooms created to help investors find startup super-match

Programme

Startups engagement:

- 4 batches of startups by May 2022
- The 1st batch: November 2020
- Accepted startups: 25-35 per batch
- 3-6 months of individual support

Investors engagement:

- Demo Days – on-line pitching and meetings with selected deep tech startups
- DemoDays for 1st batch:
 - January 2021
 - April 2021

Investors profile

- Investors, business angels and venture capitalists with a track record
- Interested in European-level investments
- Focused on deep-tech startups
- Ready to run investment process in English
- Thrilled to meet outstanding deep-tech talents

Benefits

- Staying ahead of competition by accessing our base of pre-selected, disruptive start-ups.
- Opportunity to screen startups from different countries and various deep-tech fields at a glance, saving time and resources.
- Gaining insights about the latest market and innovation trends.
- Becoming a part of an international network of fellow investors with whom you can discuss investment opportunities.

Application period:
04 July – 01 September
